DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 21 is rejected under 35 U.S.C. 102(b) as being anticipated by Fuchs et al (US Patent 5,980,538). The patent to Fuchs et al discloses a tissue-suturing instrument comprising a tissue grasping mechanism instrument 3 for positioning a suture on a first side of a tissue; a crochet head design 1 for piercing tissue from a second and engaging the suture.

Allowable Subject Matter

Claims 1-20 are allowable over the art of record.

Claims 22-34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
